

Foolproof hotel statistics

Stathôtel, an on-line statistics application, delivers reliable data from the biggest independent hotel reservation database.

Depending on the needs of your project, and thanks to this unique tool, you can study the occupancy rate, the RevPar, the mean price or the turnover so as to increase your revenues or have a reliable yield management based on the competition, the context or the demand.

A Web application for hotels, yielders, bankers and investors

A real-time overview of the hotel market thanks to data straight from the Medialog PMS to conduct a research safely and effectively!

Access to past and future hotel statistics to analyze yesterday, today or tomorrow's market.

User-friendly thanks to statistics available by hotel location or by visitor nationality to let you position yourself in a given business context.

Data search optimized by period of time, geographical zone or hotel category to decide how to increase your revenues..
